

Let's Face It! We want to look our best at any age—not over-filled and over-stretched, just natural. We want to age gracefully, beautifully and elegantly. Inevitably, fine lines and wrinkles set in, and now there is a simple, non-surgical treatment that will address those concerns and have you out to dinner that same night.

- ✓ No Surgery
- ✓ No Downtime
- ✓ Virtually Pain-free
- ✓ Ready to Go Out That Night

- ALLEVIATE FINE LINES AND WRINKLES •
- TIGHTEN SKIN •
- NO DOWNTIME •
- VIRTUALLY PAIN-FREE •
- RESULTS YOU CAN SEE IMMEDIATELY •

BEFORE & AFTER

After three treatments.

**REAL CLIENTS ARE SAYING...**

"I had 'The Vivace Experience' about a month ago and was thrilled! I've had other microneedling procedures before, but wasn't sure what to expect with this device. The clinician asked me during the process to report my pain level between 1 and 5. I had difficulty answering because most of the time I wasn't feeling anything that I would label as "pain," despite the fact that the machine was on its maximum setting. Immediately following the treatment, I went out to dinner (without makeup), and friends commented on how great my skin looked."

*The Vivace Experience provides the most dramatic results with virtually no pain and no downtime.*

### **THE VIVACE EXPERIENCE™**

It's the newest generation of microneedling with radio frequency, and The Vivace is FDA-cleared for your safety. This non-surgical treatment for contouring and tightening the face, neck, hands and body stimulates the natural production of collagen, and reduces fine lines and wrinkles using the most revolutionary, best-in-class Vivace Microneedling RF device designed for an incomparable, comfortable patient experience.

We combine the treatment with the newest breakthroughs in numbing cream, treatment serums to create an optimal patient experience.

The Vivace Experience provides the most dramatic results with virtually no pain and no downtime. The results are both immediate and improve over time with multiple treatments. With results you can see immediately, you'll look and feel your best at any age.

**Face the Mirror with Confidence.**

#### **·What does it feel like?·**

With a numbed face, the treatment feels like little more than light pressure to the face, with an occasional, light sparking feeling.

#### **·Does it hurt?·**

The personalized compounded numbing cream, the most effective numbing cream available, is applied 30 to 45 minutes prior to the treatment to ensure a comfortable patient experience throughout the treatment. Many testimonials from patients say they found the treatment to be in a range of comfortable to virtually painfree. The Vivace was designed with patient comfort in mind.

#### **·How do I determine the right treatment for me?·**

It's important to work with a trusted doctor who uses FDA-cleared devices to give you confidence in its safety and reliability. Seek a patient experience that has been designed to be the most comfortable experience with the greatest results. Be clear that the device used is only part of the process, the right serums and recovery system will enhance your results.

#### **·What is RF?·**

Radio frequency provides heat that stimulates collagen production which has been found to lead to tighter, younger-looking skin. Combined with state-of-the-art microneedling, patients have experienced immediate results.

#### **·How many treatments do I need?·**

Many physicians find three treatments, spaced four to six weeks apart, provide the experience patients are looking for. Results can take up to three months to fully appear as the process of collagen regeneration increases over time.

#### **·What is my recovery time?·**

The clear, microchannels created by The Vivace remain open for four to six hours—unique to The Vivace—creating opportunity to supplement the treatment with serums and recovery protocols that create optimal results and faster recovery. After that time period, our clients are ready for a night out, with very little to no indication of any treatment that day.

#### **·How long does it take?·**

The actual treatment takes about 45 minutes, with an additional 30 to 45 minutes needed for numbing.

#### **·When can I wear makeup?·**

Most patients go out hours after the treatment with no makeup at all. We recommend at least six hours before you apply makeup, and you may even wait until the next morning.

#### **·How do I get the maximum result from my treatment?·**

Most patients go out hours after the treatment with no makeup at all. We recommend at least six hours before you apply makeup, and you may even wait until the next morning.

#### **·What kind of skin does it work on?·**

Most skin colors can be treated, including tanned skin and dark skin.

#### **·How long does the result last?·**

Everyone is different, but the collagen you make is your own and continues accelerated production over three months. Results improve over time.
